1. The 1950 production of 100% sulphuric acid (H_2SO_4) amounted to 353,000 tons. The 1951 production is expected to drop below this figure. This will be caused by the projected change in the production methods which will necessitate the reconstruction of technical installations. Equipment is to be imported from the Soviet Zone of Germany. The change will be from the chamber to the tower method of production (
